## UF Future Threatened

The United Fund drive is in trouble, the UF general campaign chairman, Paul H. Kelly, said today.

"In fact, the entire United Fund concept in this area is in deep trouble unless we get more participation—in the form of contributions and pledges—from the people of the Tri-Cities."

Kelly said the annual drive "altered badly" after larger industries and employ groups had made their pledges. As of today, campaign pledges total \$305,375, or about 73.7% of the goal, Kelly said.

After looking at potential pledges from groups where solicitation still is not complete, Kelly said he could see a possibility for \$350,000 in pledges. The goal is \$413,661.

"We're going to need at least another \$60,000 beyond what we are on the way to us, if we are to come close to making the goal," he commented.

"Plans are under way now for one last effort to raise that money."

"Businesses and profes-

sional people in this area are earning good money for the most part, and we intend to re-solicit all those whose pledges have not increased much or at all in the past couple of years."

"More details will be announced next week, but we're showing for the first week of December for our effort to raise the additional \$60,000."

"I still feel that the people who can put this drive over the top will respond if they know the seriousness of the situation."

"I'm not 'crying wolf' at all. I'm perfectly serious when I say that failure of this drive could mean the end of the Tri-Cities United Fund."

"That would be tragic for the many deserving people who are helped by its agencies every year."

"I only hope that the business and professional people will keep that in mind when they are contacted—and will find it in their hearts to share a bit of their good fortune with those less fortunate."

## 'Tree of Lights' to Launch Campaign for \$12,000 on Saturday

A \$12,000 goal has been set for the 1972 "Tree of Lights" Christmas charity fund campaign of the local Salvation Army. It was announced today.

The kickoff brunch is set for 10 a.m. Saturday on the second floor of the Niedringhaus United Methodist Church, followed by lighting of the drive tree in Memorial Park.

Mrs. Alvenette Metcalf, 2718 Cayuga St., an active club woman and wife of Arthur L. "Pete" Metcalf, retired assistant postmaster of the Granite City Post Office, has been named chairman of the annual "Tree of Lights" campaign by the Salvation Army advisory board.

The church hosting the brunch is on 20th Street at Delmar Avenue. The park is at Niedringhaus and Madison Avenues.

Plans call for Henry D. Karandjeff, board chairman of the Trust & Savings Bank, to light the first bulb on the tree. Each of the 480 lights symbolizes a \$25 contribution for food and other holiday aid to needy families.

The lighting ceremony is ex-

### Gasoline Tax Fund in Debt

By HARRY BARNES  
Press-Record Staff Writer

Substantial cutbacks in Granite City commitments to street improvements financed by state-allocated motor fuel tax funds are being considered by city officials as the only means of avoiding a complete breakdown in the city's MFT program and the possible loss of several major street improvements.

Officials supporting such action contend that unless some of the city's projected street improvement programs are held up, the city may be unable to carry out the improvement of Johnson Road from Franklin Avenue to Pontoon Road.

And the city could find it hard to finance the Granite City share of improvement of Maryville Road.

Mounting difficulties in the motor fuel tax fund result from an accumulation of street programs authorized by city officials over the past several years.

In addition to a debt of \$349,086 owed the state as the city's share of the improvement of Nameoki Road five years ago—a debt for which the state is now asking payment.

**\$12 Million Due**  
Records show that the city, as of Nov. 1, had a balance of \$253,889 in the motor fuel tax fund, while the estimated cost of projected MFT programs totals \$226,976.

Of this total, \$1,253,539 is now due, or is definitely committed for payment by resolutions or other City Council actions.

The city receives approximately \$30,000 per month, or \$360,000 per year, in motor fuel taxes.

On this basis, it would take six years of motor fuel tax revenue to finance the total cost of all projected programs, or three and a half years to pay off the \$1,253,539 which is now due.

Alderman Walter Nomm warned the City Council in a meeting last week that the present status of the motor fuel tax fund could prevent financing of the Johnson Road project for which bids are scheduled to be opened this week. Cost of the Johnson Road improvement has been estimated at \$347,728.

His remarks brought protests from other aldermen who said the Johnson Road project has been on the city's priority list for several years and now that construction is near, no effort should be made to stop that job.

**Payment Delayed**  
The major immediate problem confronting the city is payment of the \$349,086 owed the

## Cong. Price to Push For Drainage Funds

Cong. Melvin Price (D-East St. Louis) will meet soon with officials of the U.S. Army Corps of Engineers to expedite engineering work on a plan by Illinois Governor Richard B. Ogilvie to drain the Doherty Slough area in Nameoki Township, the congressman's office at Washington, D.C., told the Press-Record today.

Plans by Cong. Price to discuss the project with Army engineers followed announcement of the Washington last week that a request for \$4.2 million in federal funds for the Doherty Slough program had been turned down under Public Law 99 (emergency funding) and that the project will be developed and financed instead as part of the Army Corps of Engineers' Hillside Drainage program.

A spokesman at Cong. Price's office said the transfer of the Doherty Slough project to the Hillside Drainage program "actually does not constitute a decision of Governor Ogilvie's request for federal funds since financing still can be provided out of monies appropriated for hillside drainage."

He said Army Corps development of the Doherty Slough project as a hillside drainage project is considered by Cong. Price as a

"positive move" since it makes immediately available a \$90,000 fund necessary to engineering work and a determination of the actual cost of the program urged by Governor Ogilvie.

**Anticipate Delay**  
Admitting that there could be "some delay" as a result of the transition of the program development, the spokesman said that Cong. Price plans to press for development of the project on a continuing basis and to take any action necessary to "assure the availability of funds."

Plans for the project with a request for \$4.2 million in federal funds were filed by Governor Ogilvie with the Army Corps of Engineers in mid-October. The funding was sought under the government's emergency Public Law 99.

The governor's plan, developed by his chief waterways division engineer John Guillo, provides included concrete conduits extending southward from the Doherty Slough area to Horse-shoe Lake. A channel angled as the arm of a Y from the main conduit to Long Lake near Pontoon Beach is included in the plan.

The portion from Nameoki Road to Franklin already has been paved.

## Exceeds Advance Estimate by 5½%

Low bids on improvement of Johnson Road, opened Monday afternoon, totaled \$367,369 or 5½% above the advance estimate of \$347,728.

Since there is a state limit of 5% over engineering estimates of cost, a second bid call is a possibility, city officials reported. The work is to be financed from motor fuel tax funds.

The paving project is divided into two segments. A contract award on either or both will depend on approval of the bid figures by the Illinois State Department of Transportation, City Clerk Robert Stevens said.

Two firms submitted bids on improvement of Johnson Road from Franklin Avenue to Lindell Boulevard, in one section, and from Lindell to Pontoon Road, in a second phase.

A bid of \$167,449 was submitted for the first section, Franklin to Lindell, by G. H. Sternberg & Co. of Granite City and an offer of \$185,435 for that section was submitted by Redluc, Inc., of Wood River. The low bid exceeds the \$154,529 estimate by 8%.

For the second phase, from Lindell to Pontoon, the Sternberg & Co. bid \$159,920 and the Wood River firm bid \$128,712. The lower of the two amounts is 3½% above the \$132,559 estimate by 8%.

The portion from Nameoki Road to Franklin already has been paved.

## Walker Promises Excitement...

By KEN WATSON  
Copy News Service

Springfield — At this early stage, there is general State house agreement on only one point concerning the new administration of Governor-Elect Dan R. Walker.

Walker said frequently during the final days of the campaign that he planned to make the Statehouse an "exciting place," which he said it was during the four-year term of Gov. Adlai E. Stevenson II. Both are Democrats.

No one to date has been able to come up with an acceptable explanation of what Walker means by exciting, but a member's review of the Stevenson years is interesting.

Stevenson, like Walker, was a comparative unknown when he won election in 1948 and his arrival in Springfield did usher in something of a new era in Illinois government.

Not only did he bring with him a number of young intellectuals, Ivy League types, but Adlai II had class himself. Walker the verbal wit and humor that characterized the older Stevenson, not the politician aura that hovered about the governor and his retinue.

But it is anticipated that Walker may well display the often unorthodox performance of Stevenson. He is considered likely to pop up about the Statehouse abruptly and unexpectedly.

His "return of government to the people" may have some one expected if not disturbing results as far as some state employees are concerned.

Walker does not appear likely to pay much attention to traditional lines of communication and supervision.

He is more likely to act directly on his own. In spite of his post-election comments that there will be no mass firings, the prevailing Statehouse feeling is that there will be a general housecleaning in about six months.

Walker's frequent campaign declaration that he will fire 84 of Ogilvie's public relations and information people already has triggered a job hunting among some of them.

What may slow down the traditional job turnover will be Walker's necessity of preparing in a relatively short time a new budget and a meaningful legislative program for submission to the legislators in early January.

The fact that he will be facing a House and Senate with Republican majorities, even if small, will not make his job any easier.

There has been no public indication that Walker has formed any study groups to draft advance programs to serve the new governor.

Gov. Ogilvie four years ago benefited substantially from such advance work by task force groups which functioned quietly during the campaign.

But in this pre-inauguration period, the focus is on the man rather than his potential programs.

Dan Walker, everyone agrees, indeed will be interesting.

At stake in addition to the post of speaker will be chairmanships and member appointments to at least 20 committees.

The Republicans are expected to have either an 88-88 or 90-87 edge over the House Democrats, depending on the outcome of election canvassing.

Blair believes he will have more than 50 backers at the time of the election. Each side maintains the other is piddling the projected totals.

There will be about 33 new GOP members of the House, and their support is being sought by both sides.

## ...Assembly Also May Be Lively

By MARION BARTOSIAK  
Press-Record Staff Writer

Although the present Illinois General Assembly will transact its final business in a session resuming Nov. 26, much attention already is focusing on the legislature's reorganization for the next annual session opening Jan. 10 in Springfield.

Republicans, who hold a bare majority in both the House and Senate, are scheduling caucus to organize the 1973.

With a one-vote, 30-29 margin over Democrats, the Senate GOP will caucus at 11 a.m.

Tuesday at Springfield to determine a president of the chamber and consider committee chairmanships the Republicans last to the Democrats in 1971.

Acting Republican Leader Terrell E. Clarke of Western Springs expects more than one candidate for the leadership.

Among them are Clark, Sen. William C. Harris of Pontiac and Sen. Hudson Sours of Peoria.

Under the old state constitution, the lieutenant governor served as president of the Senate; the new constitution pro-

vides that the senators elect a president from their ranks. A battle is looming for the election of a speaker of the House, for which a caucus is yet to be scheduled. State Rep. Henry Hyde is challenging incumbent Speaker W. Robert Blair, who has been supported in the past by outgoing Gov. Richard B. Ogilvie.

Hyde, who was majority leader, complained that he was left out of party strategy talks in the last session. Hyde's backers have claimed 41 support-ers and 16 others leaning toward him.

## Land Plan Could Cripple Region, Planners Told

The steady advance toward adoption of regional land use controls, possibly at next Tuesday's East-West Gateway Coordinating Council board meeting, is being done in a way that could severely cripple the metropolitan area, it was pointed out here last night.

Grave concerns were voiced by many of those present at the November meeting of the Southwestern Illinois Council of Mayors.

Speakers were Allan Berg, East-West deputy director for planning, and Dr. Carl S. Losness, chairman of the East-West. They discussed the land use plan, stressing that adoption before Dec. 31 is essential to continue this region's qualification for a wide variety of federal financial grants.

Many questions were submitted to the two speakers. John Bellico, president of the Southwestern Illinois Metropolitan Area Planning Commission, and others told Berg and Dr. Losness that they were giving evasive and confusing answers.

The speakers sought to picture regional controls as flexible and unrestrictive, but declined to consider several suggested changes in the primarily rural designation for the Quad-City area and American Bottoms, which are criticized severely in written East-West planning documents.

Noting that charts show large white areas here for minimal usage, rather than colorful designations for various types of authorized development, Nameoki Township Supervisor Louis Whitsett unsuccessfully urged the planners to "color it up a bit so that our area can have a future."

Proposed restraints on industrial, commercial and residential development were described by members of the audience as much more severe for the Illinois portion than for Missouri.

Those voicing questions or comments included Carl E. Mathis, chairman of the local ABIL (Agriculture-Business-Industry-Labor) committee, Venice Mayor John E. Lee, Granite City Engineer Edward J. Round Table.

## MORE ABOUT Gasoline Tax

Illinois State Department of Transportation for the Nameoki Road improvement. That project was completed in 1988 and payment of the city's share of the cost has been carried over from year to year without any effort to pay that bill, or any part of it.

Two weeks ago the transportation department sent the city a bill for the full amount and suggested the debt be paid in full with one cash payment, or that installments of \$25,000 per month be paid until the account was settled.

Council members last week noted that full payment would reduce the city's motor fuel tax account to about \$16,000.

Alderman Steve Basarich, chairman of the council's Finance Committee, discussed a \$25,000 monthly payment and suggested that the city "make an offer" to the state for a \$10,000 monthly payment.

The council authorized City Clerk Robert Stevens to make such an offer, if the state should accept the proposal, it would take the city 25 months to pay off the debt, reducing the city's monthly income in MFT funds to about \$20,000 each month during that period.

**Earmark, \$350,000.**

In addition to the Nameoki Road and Johnson Road projects, the council has passed a resolution earmarking \$350,000 in motor fuel tax funds as the city's share of the improvement of Maryville road, a county-sponsored project that will cost an estimated \$2 million.

The city's regular maintenance program for the 1972 year will require another \$135,156, of which \$24,885 will be paid for repair work on Pontoon Road between Franklin Avenue and Maryville Road. That contract already has been awarded.

The Topick program supported by Mayor Donald Partney calls for \$28,710 in MFT funds for engineering purposes and \$99,500 as the city's share of a project providing for safety improvements at five Granite City street intersections. The funds have been committed in this program.

Other street improvement projects and estimated cost now in the engineering stages include Benton Avenue, \$190,017; Nameoki Drive, \$392,083;

## Secondary Treatment Bid Is \$10,800,000

A low base bid of \$10,800,000 for construction of Granite City's secondary sewage treatment plant was among five bids opened by city officials Wednesday.

The bid was submitted by the G. L. Tarrant Co., St. Louis. Ray Haller, vice-president of M.W. Architects and Engineers, Inc., St. Louis, the city's special engineers for the treatment plant project, said the Tarrant offer is \$300,000, or 3%, above the engineers' cost estimate of \$10,500,000.

"This is considered well within reasonable range of the original cost estimate," Haller said.

The Tarrant bid was \$300,000 below a bid of \$11,100,000 submitted by S. M. Wilson & Co. of Granite City, the only local firm to bid on the project.

Other bidders were: J. J. Altman & Co., East St. Louis, \$11,969,871; U. S. Enviro-Con,

Inc., St. Louis, \$11,650,000; and Hoei-Speffen Co., St. Louis, \$13,281,700.

**Referred to Engineers**

The bids were referred to the M.W. engineering firm for computation and a study of alternatives listed in several of the bids. The engineering firm will make recommendations to the Granite City Council for a contract award.

About 50 persons attended the bid opening in the Granite City Civil Defense office, including contractors and suppliers.

The bids were opened by City Clerk Robert Stevens. Representing the city were Aldermen R. E. Robertson, Walter Nomm and Everett Morlen, who make up the City Council Pollution Plant Committee. Alderman Claude Green and Robert Jackson, superintendent of the sewage treatment plant, Haller and A. K. Pierson, also of M.W., attended.

## Venice School Board OK's New Work Agreement

The Venice Board of Education last night ratified a new working agreement with Building Union Local 88. The agreement provides no increases in salary but adds new fringe benefits to the previous contract.

Changes in the new agreement relate to holidays to be observed by members. These include Friday after Thanksgiving (if school is not in session) Monday after Easter (if school is not in session) and emergency leave for death in the immediate family.

Also included in the terms is a provision that "vacation shall normally be taken during the period from June 1 to August 31. If the immediate supervisor shall consider it advisable to schedule vacations during a period other than indicated..."

The School District is to notify the Union within five days after new employees are hired, giving their names and addresses, and the job classification in which they shall work, the agreement states.

Leo Davinroy, president of the board, presided at the meeting held in the board office.

Superintendent of Schools John Pier submitted monthly bills for the Venice Public Schools in the amount of \$10,753 in the education fund; \$2,399, building fund; \$2,887, transportation fund; \$1,069, fire and safety, and \$2,135, cafeteria bills, all were approved by the board.

Also approved by the board were the payrolls for both Venice schools, and Lincoln Technical Center.

Other bills approved were a total of \$54 to the Luers Insurance Agency; \$48.70 Economy Sporting Goods and \$385.81 to Triangle Heating Co.

## Wage Disagreement

Four fabrication employees of the Milnor Co. in Venice have halted production at the metal products firm since Monday in a disagreement over wage levels and fringe benefits.

## Insurance for Nameoki Employees Accepted

The Prudential Insurance Co. was chosen from three bidders last night to provide health and life group insurance for full-time employees of Nameoki Township.

The Prudential bid, which will cost the township about \$23 per month, was accepted by the Township Board over Metropolitan Life Insurance Co. and the Luers Agency. Bids were opened by the board Monday night and were held for last night's special meeting.

The board also agreed to investigate making insurance available for full-time employees who will pay the full premium and providing life and weekly disability insurance for the township auditors. It was explained that adding persons to the group plan would reduce the rates for all so that all auditors could be added for about \$9 per month.

## Warriors May Wrest Title From Maroons Here Friday

In quest of at least a share of the Southwestern Conference crown, the Granite City High School football Warriors will test league leading Belleville West in a week-end feature event at 8 p.m. Friday on the GCHS gridiron.

The Warriors (5-1) are a half game behind West's Maroons (5-0) in the league standings and a victory would place them in first place at least temporarily as they close the curtain for the season.

GCHS defeated West 23-13 last year.

Also in the running for the title are the East St. Louis Flyers (4-1) who play Belleville East (4-3) Saturday and then finish against the Maroons in their traditional Thanksgiving Day game at Belleville.

The Warriors are aiming for their first league championship since 1946.

Under the leadership of Coach Bruce Arnold, whose two-year record with West was 5-5 in 1970 and 8-2 in 1971, the Maroons have 18 returning lettermen, including three juniors.

Returning to the backfield are Jim Hill, Gary Mauser and Jay Fields.

Hill, 5-8, 168 senior is a tri-captain and goes both ways as a halfback and a linebacker. According to Arnold he is a sure tackler and reads his blocking quite well on offense.

Hill was West's most valuable defensive player last year. He had a 4.8 average and 2 TD's rushing, plus 21 interceptions.

Arnold describes Mauser 6-1, 184 senior tri-captain, as an ideal quarterback who throws extremely well and runs the option to perfection."

Mauser threw for 1,211 yards for 16 TD's with a completion percentage of 68.

The other West tri-captain is Matt Bowman, 6-2, 203 senior, a two-year letterman who starts on offense and plays as a line-backer.

Other Maroons to watch are Mark Alberto 5-8, 155 senior offensive halfback and defensive safety, and Kent Randle, 5-11, 155 senior offensive halfback

and defensive safety. A two-year letterman for West, Jay Fields, 6-1, 195 senior, supports a 4.1 average rushing and does his job when it comes to blocking, according to Belleville's mentor.

A West guard on offense who hits with authority is John Pottle 6-0, 190 senior.

The Maroons will be with out the services of Brad Hanna, defensive halfback, two starters with knee injuries.

The Belleville West tentative offensive line up will be Tim Kasmark, 185 junior left end; Joe Ballargoon, 210 senior left tackle; Matt Bowman, 203 senior left guard; Greg Bender, 195 junior center; Bill See, 195 junior right guard; Tom Sims, 210 junior right tackle; Doug Grieman, 180 junior right end.

In the backfield will be Mauser at quarterback; Hill at left half; Gary Range, 175 junior at right half; and Fields at fullback.

West will use a double-wing style offense and a five-man front on defense similar to Granite City.

The defensive lineup for West: Dennis Watkins, 175 junior right end; Ron Hocking, 185 senior right tackle; See at middle guard; Jeff Kroenig, 200 senior left tackle; Mike Ledbetter, 202 senior left end.

Paul Kony, 175 junior right corner; Brad Will, 165 junior right half; Steve Adams, 185 junior left half; Mark Alberto, 155 senior left corner; Ronnie Eiskant, 170 junior right line-backer and Hill, left line-backer.

In eight games, West has scored 18 points to 42 for their opponents. The Warriors nine games have scored 161 points while allowing 132. A top defensive effort seems in order to beat West.

"The importance of Friday's game should be the incentive needed for our boys to win," Warrior Coach Wayne Williams said.

"This is only the third time since we won the conference, 1946 that we have had a chance for at least a tie. In 1964 and

my first year here in 1969 we had a chance and played Belleville in our last game.

"As far as we are concerned this is it, we either do it or we don't. This is our last game. It is the last game our seniors will play for the Warriors and I am sure they will want to end their prep grid careers as winners.

"I was pleased with our defense against Jeff City even though we lost. Jeff City had been scoring about 30 points a game and our defense held them to only one touchdown and a field goal.

"When we play West we will be facing the toughest offensive team we have gone up against all season. Their fullback has been gaining about 300 yards per game rushing.

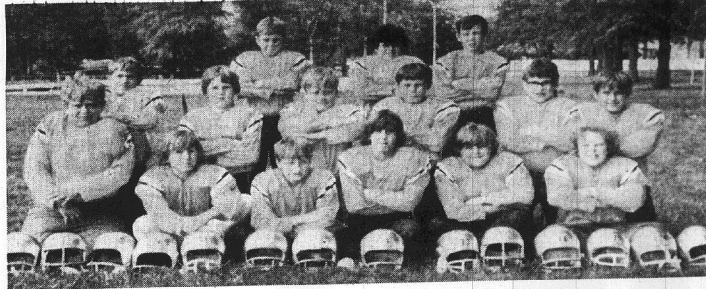

"I hope our team will not get so keyed up for the game they over react. We are going to need to play relaxed, tough football and keep our heads. There will be no changes in the defensive lineup.

"Of course Williams is out with a broken leg and Milton will play for him. Donbeck will dress and be ready to play if needed, although he will not be functioning at 100%. Although they were hurt, Schooley and Reinhardt will be ready."

"Regardless of the outcome of Friday's game the coaching staff is very proud of our team this year. After losing two early games, instead of laying down, they fought their way back up still to be in contention for the conference title and this shows we have really fine young athletes," Williams concluded.

## 4 Top Athletes to Highlight Park Sports Awards Dinner

Sports personalities and awards will highlight the 13th annual Sports Awards Banquet of the Granite City Park District at 6:15 p.m. Monday at the Granite City High School Cafeteria.

Steve Carlton, winner of the Cy Young Award as the best pitcher in the National League, will be among four major league athletes in attendance.

Carlton, who hurled 27 victories for the Philadelphia Phillies, is a former St. Louis Cardinal.

Joe Horner, Atlanta Braves hurler, and Granite City's Dal Maxvill, now with the Oakland As, both former baseball Ca-

dinals, will be here. Representing the gridiron side of the program will be Conrad Dobler a 6-3, 250-pound guard in his first year with the football Cardinals.

A versatile fifth-ranked draft choice, he played both on offensive and defensive lines in college after making the transition from prep football.

Dobler was ranked second among leading tacklers last year, which included eight tackles-for-loss.

Henry Gabriel, Park Board president, will serve as master of ceremonies and the Rev. Robert Becker will give the invocation. Park Commissioner Milton Worthen will present the

official welcome to the 837 players and coaches expected to attend.

Two service awards will be presented by Paul Thompson, park commissioner, and Barry Loman vice-president, will present the major award of the evening, the Appreciation Award.

Other awards presented will include 27 boys baseball awards, 15 basketball awards, 21 women's softball awards and 40 men's softball awards.

This year there were 3,710 regular players participating in the park district's various athletic programs, composing 237 teams.

## SUUE Women Best McKendree

The women's intercollegiate volleyball team at Southern Illinois University at Edwardsville defeated McKendree 15-4 and 15-2 Tuesday in the gym at the Alton campus.

The local team will play the University of Missouri-St. Louis Monday at the Forest Park Community College gym.

WINCHESTER General Sheridan defeated Maj. Gen. Early at Winchester on Sept. 19, 1864.

## Seebold to Race

Bill Seebold, formerly of Granite City, will be one of four area drivers to race in the Outboard World Championships Nov. 25-26 on Lake Havasu.

The \$65,000 event is the richest outboard motorboat race in the world.

## Warrior Soccer Season Adds Luster to History of GCWS

By GARY SCHNEIDER  
Press-Record Staff Writer

The achievement of the Granite City High School soccer team last weekend, becoming the first Illinois state champion in the sport, ranks as one of the highlights in the history of the school.

The achievement also speaks highly of Coach John Sellmeyer who in two years of leading the Warrior squad has had one undefeated season and one state crown. The Warriors missed being undefeated this year by only one game, that against Collinsville.

Individual Record  
Worthen set a new individual

player record with 21 goals and 12 assists during the season for 54 points. The previous record, 48, was set during the 1970 season by Bobby Galvin who had 22 goals and four assists. Galvin still holds the record for the most goals.

Canada was second in points this season with 37 earned on 16 goals and five assists. Third was Dake with 11 goals, nine assists and 31 points. Dave Sheridan, 11 goals and five assists, and Harvey Breckner, nine goals and nine assists, tied for fourth place with 27 points each.

Other point scorers, with goals, assists, and points, were: Andy Baugh, 5-16; Steve Powderly, 5-10; Phil Hill, 1-8; Don Valencia, 1-8; Ruben Ybarra, 2-8; Keith Gehling, 1-5; John Dave Wolf, 2-15.

Dennis Jones, 1-2; Pete Mushill, 1-2; Marc Voegelé, 2-4; Mark Baugh, 0-3; Ted Geggs, 0-3; Ted Dimitrovi, 1-0; and Brad Bickhaus, 1-0.

The most goals in a season, 97, topped the 84 in 1971 and the 59 in 1970. The 16 shutouts in the season were more than the 10 last year and the nine in 1970. Goalie Tom Clark set another record with 15 of the

shutouts credited to him. Opponents scored only 12 points against the Warriors. Last year 12 goals were scored by opponents and in 1970, challengers earned 11 points. The dozen this season marks the lowest average score per game as 24 games were played compared to 20 last year and 17 in 1970.

**Back Next Year**  
Juniors returning next year are Mark Baugh, Bickhaus, Clark, Mike Demaree, Geggs, Gehling, Jones, Voegelé and Ybarra.

Point earners who may return as juniors next year are Breckner, Sheridan, Valencia and Wolf.

Seniors who played their last high school game at the state finals were Andy Baugh, Dake, Dimitrovi, Hill, Mushill, Powderly, Worthen, Canada and Goalie Bill Schnefke.

With 14 experienced varsity players and numerous junior varsity men who played this year returning for the 1973 season, prospects are good that next year may be as good or better than the 1972 season. This year was good enough for the state crown and for the Granite City High School soccer report, "We are number one!"

## Mechanism for Public to Oppose Pollution, Noise

Under the Illinois Environmental Protection Act, an individual can be his own pollution watchdog and bring complaints if he feels his environment is endangered contrary to law, according to the Illinois State Bar Association.

The individual who is aware of deterioration or damage to his environment due to pollution doesn't have to wait for someone else to act, but may bring a complaint before any one of a number of government agencies, the ISBA said today.

Or, an individual or group may hire an attorney to take the case directly to the appropriate court.

The Environment Protection Act sets up an Environmental Protection Agency and complaints may be directed to the agency. It is required by law to evaluate the complaint, investigate any investigation that may be warranted and prosecute the offender for any violation or otherwise cause corrective action to be taken.

The Act also creates a Pollution Control Board which serves as a pollution court. The law provides that "any person" or his or her attorney may bring a case before the board.

A copy of the complaint must be served on the alleged polluter.

Unless, after hearing the evidence, the board finds the complaint duplicates a prior complaint or action, or is "frivolous," it will issue a formal finding against the offender, detailing the anti-pollution regulations which have been violated and enjoining the offender against further pollution. The offender also may be fined.

## Record County Vote Cast, Canvass Shows

A record 101,398 voters went to the polls in the Nov. 7 general election in Madison County, exceeding the previous record of 99,253 ballots cast in the 1960 election, according to the official vote canvass completed this week by the office of County Clerk Eulalia Hotz.

The Environmental Protection Act prohibits any air, water, land or noise pollution as defined in the law.

Also, as a protection against atomic radiation, the law requires that no nuclear steam-electric generating plant or nuclear fuel reprocessing plant may be constructed in the state or its operations expanded without a permit from the Pollution Control Board. The board must conduct a public hearing to determine the environmental effects of the construction or expansion of such operation.

Complaints of pollution also may be directed to the attorney general or to the state's attorney, since they are charged with enforcing the environmental protection laws.

As an aid to his complaint, the ISBA said, an individual may also ask a local board of health or other local agency to investigate and corroborate the circumstances.

As an example, it said, a board of health would be interested in any pollution which endangers the health of the community, such as open dumping of garbage, contamination of rivers and streams or open burning of refuse.

On the subject of noise pollution, the law says that "no person shall emit beyond the boundaries of his property any noise that unreasonably interferes with the enjoyment of life."

Official returns resulted in only minor changes in the unofficial vote tabulations reported earlier, Miss Hotz said. There were no changes in the elective status of any of the candidates.

The greatest change in the vote for candidates on either ballot occurred in that cast on the Democratic ballot for George McGovern and R. Sargent Shriver, for president and vice-president, which totaled 43,289 in the official canvass, an increase of 322 votes over the unofficial vote tally of 42,967.

The official total vote for Richard M. Nixon and Spiro Agnew at the top of the Republican ticket was 55,385, and increase of 30 votes over the unofficial tally of 55,355.

In the race for governor, Democrat Dan Walker and his lieutenant-governor running mate, Neil F. Hartigan, gained 45 votes in the canvass for an official count of 39,523, compared to the unofficial tally of 39,478 votes.

Leslie 13 Votes Governor Richard B. Ogilvie and James D. Nowlan on the GOP ticket received an official tally of 39,030, a loss of 18 votes from the unofficial returns of 39,048 votes.

Minor changes resulted from the canvass of the vote cast in the race for U. S. Senator. Democrat Ruman Pucinski received an official count of 39,688, compared to an unofficial tally of 39,682.

Charles H. Percy, Republican candidate for senator, polled 55,386 officially, a loss of 21 votes below the unofficial tally of 55,907.

The official vote count for other state, district and county candidates, is as follows:

For attorney general, Democrat Thomas G. Lyons, 47,109; and Republican William J. Scott 45,330; secretary of state, Democrat Michael J. Howlett, 55,147, and Republican Edmund J. Kucharski, 38,852; comptroller, Dean Barringer (D), 50,206, and George W. Lindberg (R), 37,579.

## Court Resets Kerner Trial For Jan. 3

The trial of former Gov. Otto Kerner and Theodore Isaacs, who was state revenue director, was postponed this week until Jan. 3 in Federal District Court. They are charged with conspiracy and bribery.

Defense attorneys maintained that sequestering the jury through the holiday season could be prejudicial to their clients. The prosecution had asked that the jury be sequestered to isolate the members from new accounts of the trial which had been scheduled to start yesterday.

## 'Evening in Vienna' Sunday at St. Peter

The warm, lilting strains of music reflecting the gracious days of old Vienna will be heard Sunday evening in colorful surroundings reminiscent of an oldtime Viennese coffee house, recreated at St. Peter Evangelical United Church of Christ, 2101 Cleveland Blvd.

The atmosphere in St. Peter's Fellowship Hall, transformed for the occasion into a Viennese setting, will be heightened with the presentation of a piano

recital by Laurence Berry, concert pianist.

Viennese pastries and coffee will be served at "An Evening in Vienna," theme of the special program, scheduled to start at 7:30 p.m. Sunday. The public is invited to attend.

Tickets, costing \$1.50 each, may be obtained in advance from members of St. Peter's Alternoon Guild, by contacting the church office, at 877-1904, or at the door Sunday night.

**Church Window Fund**  
Proceeds from the event will be added to the St. Peter's Window Fund, established to defray expenses involved in acquiring 17 uniquely handcrafted windows recently installed at the church.

Designed and crafted by artist Gabriel Loire of the Loire Co., in Chartres, France, the windows are the first of their type to be installed in a church anywhere in the world.

Overall theme of the contemporary style windows reflects the "statement of faith of the United Church of Christ," a spokesman said.

**Dedication Planned**  
The windows were transported here by ship from France via the St. Lawrence Seaway. Glaziers currently are in the final stages of installation, and dedication ceremonies are planned at the church Sunday, Dec. 3, it was learned.

At this week's concert, Berry will perform the works of Chopin, Brahms, Schuman and Beethoven. His choice of music will harmonize with the "Evening in Vienna" theme.

The pianist was born in Paris, Tenn., and came to Granite City two years ago. He is a student of noted pianist Ruth Slenczynska, at Southern Illinois University, Edwardsville, where he is working toward his master's degree in Music Performance. He holds a bachelor of arts degree from SIUE.

Earlier, Berry studied music at Boston University and with renowned concert pianists in London, Vienna and Paris.

In addition to his advanced studies at SIUE, he serves as organist and choir director at St. Peter's Church and teaches piano privately.

During the summer months, the pianist directed the Granite City Park District's Music Under the Stars series in Wilson Park.

A capacity crowd is expected to attend "An Evening in Vienna" Sunday.

## Sunshine Class Sets Party Date

The Sunshine Class of Second Baptist Church will hold a Christmas party at 11 a.m. Monday, Dec. 4, at the home of Mrs. Dorothy Barnes, 2454 Logan Ave. Gifts, costing not more than \$1, will be exchanged by the members.

Plans for the party were made at the regular class meeting Monday at the home of Mrs. Rosalee Portell, 2840 Michigan Ave. The meeting opened with members singing "Heavenly Sunshine."

Mrs. Barnes led the prayer and gave the devotional taken from Psalms 1-6.

The class agreed to donate \$5 to the Lottie Moon Christmas Fund for missionary work and to send handkerchiefs to Mrs. Jeanette Sturdivant and Mrs. Charlene Sanders, class members who are hospitalized.

A home-made cake was presented to Mrs. Evelyn Smith to celebrate her birthday.

Others in attendance were Mesdames Francis Feldman, Isabelle Burnett, Steffie Lizbar, Alma Burnett and daughter, Cardine, Francis Sims, Gladys Huggins, Gloria Lee Burnett and daughter, Donna, Jeanette Young, Margaret Dutton, Betty Lewis, Elenore Cook, Evelyn Smith and Mrs. Norma Raines and granddaughter.

MR. AND MRS. LARRY BITTICK. They exchanged wedding vows at the First Baptist Church in Dora, N.M., and are now residing in Granite City. She is the former Linda Lou Carmichael, a daughter of Mr. and Mrs. J. W. Carmichael of Dora.

## Linda Carmichael Wed In Dora, New Mexico

Mr. and Mrs. Larry Joseph Bittick are residing in Granite City following their wedding Oct. 10 at the First Baptist Church in Dora, N.M., performed by the Rev. G. W. Fine of Borger, Tex.

The bride is the former Miss Linda Lou Carmichael, a daughter of Mr. and Mrs. J. W. Carmichael of Dora, N.M. The groom's parents, Mr. and Mrs. Herb Bittick, reside in Kansas City, Mo. They are former Granite City residents.

Given in marriage by her father, the bride chose a Empire styled gown of white lace over pastel lilac bridal satin, featuring a lace train secured at the waist.

The dress was designed with long tapered lace sleeves set in a fitted bodice, a round neckline and an A-line skirt. She wore a shoulder length veil edged with lace motifs secured to a headpiece of lace pearls and pearl flowers centered with rhinestones. She carried a cascade bouquet of white roses, chrysanthemums and a white Bible.

Maid of honor was Miss Sharon Bittick, a sister of the groom. She selected a French fashion in soft velvet double trim with white lace, ribbons and a floral brooch. She carried two long stemmed purple carnations.

Other members of the bridal party were Keith Carmichael,

a brother of the bride, best man; and Becki and David Benson, foster brother and sister of the bride, candlelighters.

Michelle Carmichael, a sister of the bride, was the flower girl and Chase Gentry, the ringbearer. Denver and Win Askew seated the guests.

A reception was held at the Dora Community Building immediately following the 7:30 p.m. double ring ceremony.

The newly married couple traveled to Artesia, Santa Fe and Royal Gorge areas before moving to Granite City.

A graduate of Dora High School, the bride attended the University of Arkansas in Fayetteville. She was employed at St. Elizabeth Hospital in Granite City prior to her marriage.

Her husband completed a tour of duty with the U.S. Army and is now employed by the Flavor King Baking Co., Granite City.

Out-of-town guests who attended the ceremony were Mr. and Mrs. Herb Bittick and Sharon of Kansas City, Mo., Mr. and Mrs. Buster Palmer of Roby, Tex., and the Rev. and Mrs. G. W. Fine of Borger, Tex.

The meeting, starting at 7:30 p.m., will include a panel discussion with parents and a film strip on the drug abuse program.

Plans for the program were made at an executive board meeting Monday night at the school, with Dale Phelps, president, presiding. Also discussed was a bake sale set Saturday, from 9 a.m. to 6 p.m., at Schermer's Market in Madison.

## Federal Retirees Discuss Laws

A review of legislation relating to retired federal employees and the 1969-70 Illinois Income Tax ruling concerning a refund to senior citizens were discussed by Sid Harris at a meeting Monday of the Retired Federal Employees Chapter 1067.

Harris urged the group to contact their congressmen and state representatives concerning any legislation that pertains to their welfare. Walter Franklin spoke on a legislation program of interest to all residents.

Plans were finalized for a Christmas party to be held Dec. 11 at the Kirkpatrick Homes Recreation Center.

Howard Vallow, Mrs. Dorothy Cavar and Mrs. Pauline Cavar were named to serve on a nominating committee to provide a slate of officers. An election will take place at the December meeting.

Thanksgiving decorations were used on the tables and pumpkin pie was served to conclude the meeting.

The organization meets at Kirkpatrick Homes Recreation Center on the second Monday of each month at 1 p.m. All retired federal employees are invited to attend the meetings, a club spokesman announced.

## Oxford U., SIUE To Debate Friday

Two June graduates of Oxford University will debate with two members of the Cougar Forensic Union of Southern Illinois University at Edwardsville at 2:30 p.m. Friday in the Religion Center. The public is invited, admission free.

Topic to be debated is "that America is a sick society." Taking the affirmative stand will be Peter A. Haywood, past officer of the Oxford Union, and SIUE student Dan Wille of Wood River, who is majoring in government and philosophy.

Debate the negative side will be Julian Priestley, former president of the Oxford Union, and Jeff Burns, an SIUE student from O'Fallon, a government major.

Charles Mecum, Vandalia, a senior majoring in speech and economics, will chair the debate.

In September, 1922, three Oxford University students arrived in America to begin a debate tour of seven northeastern colleges. To commemorate the 50th anniversary of that tour, the Committee on International Discussion and Debate invited Oxford University to participate in the anniversary events.

According to Dan Salden, a member of the speech and theater faculty at SIUE and sponsor of its Cougar Forensic Union, SIUE is the only university to host more than one set of foreign debaters during the year-long celebration. Last April three students from the Soviet Union debated at the local campus and later in the current academic year students from Poland will debate the Cougars.

The Cougar Forensic Union, which gives the audience an opportunity to participate, is patterned after the Oxford Union, Salden said.

## Moonspinners Honored At Achievement Night

The Moonspinners 4-H Club was one of 25 clubs receiving large green ribbon streamers as "outstanding" clubs at the annual Madison County 4-H Achievement Night held at the Farm Bureau in Edwardsville. The event honors all 4-H members of Madison County.

Officers of the Federation of 4-H Clubs conducted the meeting and presented the individual and club awards. Moonspinner Maria Schmidt received the 1972 4-H County Demonstration blue ribbon from the Illinois Bankers Association.

Mrs. Elizabeth K. Schmidt, Moonspinner leader, accepted other individual awards for members, which will be presented at the local club's Dec. 7 meeting. Included were 15 girls who received county project honor certificates; nine who received state project honor certificates; two who received dress review pins; and the three junior leaders who will be presented pins and certificates.

## Gardeners Aid Lincoln Gardens

The Gardeners Garden Club voted to make its annual contribution to the Lincoln Memorial Gardens in Springfield, Ill., at a meeting in the home of Mrs. A. A. Malotki, 33 Oaklawn Drive.

Mrs. C. E. Eads, president, was in charge of the business session. A dessert luncheon was served and members answered roll call with information about the herb "rosemary."

An announcement was made of the District V flower show, entitled "It's Beginning to Look Like Christmas," to be held at McKendree College, from 2 p.m. to 8 p.m. Dec. 2. Admission will be 50 cents and the public is invited to attend, reported Mrs. Earl Glenn, district horticulture chairman for the show.

The club's display for November at the Mini-Garden Center at the Granite City Public Library is entitled "Harvest Bountiful." The table features many herb cooking books that may be checked out at the library.

At the conclusion of the business session, club members patronized a "ways and means" table exhibiting many items for sale, including potted plants and each member's favorite herb recipe.

Harvested, prepared herbs (the members' growing project for the year) also were exchanged in time for holiday cooking by Mrs. Jerry Arbeiter, Mrs. Abbe Shannon, Mrs. William Long, Mrs. Charles Kohl and those named.

The Dec. 13 meeting will be combined with the club's annual Christmas buffet at the home of Mrs. Alex Tarpoff, 1609 Clark Ave.

## Amvets Auxiliary Plans Yule Party

Plans for the annual Christmas party of Amvets Post 51 Auxiliary were finalized at a business meeting held in the Post Home, 5100 Lakeview Drive.

The Yuletide event will include a buffet dinner, gift exchange and dance taking place Saturday evening, Dec. 16, at the Post Home. Music for dancing will be furnished by Keith Sweda.

A party for the children of members, set at 2 p.m. the same date, will be highlighted with a visit from Santa Claus, Mrs. Charlotte Damal, president, reported at the meeting.

Mrs. Betty Wilkins led the group in prayer and in reciting the pledge of allegiance. A new member introduced was Mrs. Jessie Gail of Fairview Heights.

During the business session, arrangements were made to send \$5 donations to the National Association of Mental Health, Save the Children Federation and Granite City Hockey Mothers Club.

An additional \$25 contribution was sent to Peaceful Valley Youth Ranch in Carlinville, to purchase school supplies. A birthday card with money enclosed also was forwarded to a youthful resident of the ranch.

Mrs. Ann Tucker reviewed a visit to the Shelter Care Home, Edwardsville, and announced a birthday gift was given to Simon Stewart, a patient.

Mrs. Charlene Sanders informed members that a package was mailed to Mike Williams, a serviceman, and a "thank you" note had been received from Nedwin Tapp, another serviceman, who received an earlier gift box from the auxiliary.

Activities at the Amvets divisional meeting held last week at Post 4 in Mount Vernon were described by several women who took part in the day-long program.

Other business items discussed were invitations to join Disabled American Veterans' Auxiliary members in visits to Jefferson Barracks Hospital and John Cochran Veterans' Hospital, set for Friday and Saturday, respectively.

A letter from DAV Chapter 83 Auxiliary of Granite City, also invited Amvets and Auxiliary members to attend a dinner dance Saturday evening, marking a visit here by the national DAV commander.

## Johnny Rivers Takes Break, Hits New Page

By JUDY HUGG  
Copley News Service  
Johnny Rivers, artist, composer and producer, makes excellent music. It's as simple as that yet just as complicated. Some eight years of work and 20 million records attest to his ability as does his latest United Artists LP "L.A. Reggae."

Although Johnny has branched out in all directions he still remains the same simplicity, clarity and freedom from pretense that has always marked his music.

"After so many years of recording and traveling and working, I just thought it was time to stop and decide what I'm going to do with the rest of my life."

**Sells Companies**  
"I took the publishing company and the record company that I had because they were hurting me as an artist, drawing on my energy. You know, it's a full-time job running a publishing company and a record company and I just want to get back to being Johnny Rivers, the artist and performer."

Looking into his past, Rivers says he came along in the music business at a time when nothing was happening. He started playing rock 'n' roll songs straight out of the fifties and people just picked up on them.

"I was doing a lot of Chuck Berry songs and a lot of country songs with a rock beat," he recalled. "After the rock stuff I did 'Poor Side of Town,' which got me into a ballad-type bag. Then I did an album called 'Changes.' The change was a natural change."

However with the passage of time, it was necessary for Johnny to adapt and keep pace with the ever changing times of contemporary music.

"Now I'm going back to the old funky rock things that we did in the beginning," he said. "It's happening all over again with Reggae. Reggae is Jamaican rock. Actually it's very simple with a few Latin sounds in it but basically it's just straight ahead good time music."

That's what "L.A. Reggae."

is all about — good time music. The title is a little misleading since there are only a couple of reggae-like tunes but in this case it doesn't matter. With sharp cuts like "Rockin' Funky-Boogie Woogie Flue," "Mother and Child Reunion," "Van Morrison's 'Brown Eyed Girl,'" J. J. Cale's "Crazy Mama" and Rivers' own "On the Borderline" and "Come Home America" there's nothing but good times on this album.

"I feel we're at a point now, not just individually but as a nation and as a planet, that we all have to start contributing whatever we can to evolution, and to enlightenment," he said, speaking of the album.

"Being a performer and being an artist is a very important obligation. Anyone who has any kind of influence or is in any kind of public life has the moral obligation to do what he can to try to keep this planet together, and to try to evolve it to a positive direction."

And that's what the man — Johnny Rivers — is all about. Gentle, open and friendly with feelings and the awareness that is a writer's gift. He speaks from experience and makes music with his heart, so back to the beginning.

Great moments from The Promenades have now been assembled by Columbia Records on a two-LP set (MG-3145). Highlight is a sensitive performance of George Gershwin's "Rhapsody in Blue" by Andre Previn, known more in America for his jazz recordings than for classical jazz, of which he has many. Kosciuszko leads the Columbia Symphony in a crisp backup of Previn's piano.

Also included is Alan Hoban's "And God Created Great Whales," which contains actual recordings of whales in the ocean. Very unusual, and guaranteed to make your dog's ears stand up. Other composers include Bizet, "Les Toreadors," Puccini, "Musetta's Waltz," Grofé's "On The Trail," MacDowell, "To A Water Lily," Strauss, waltz, and Chopin's "Poissonne Militaire" (a rarely heard symphonic version).

## SIU Five-Year Plan Goes to Higher Board

Southern Illinois University's five-year plan that reflects program development within limits of the Illinois Board of Higher Education's Master Plan was presented to the IBHE, which held its regular monthly meeting at Carbondale in mid-November.

A surprise visitor at the meeting, held in the SIU Student Center, was U.S. Sen. Charles H. Percy, re-elected Nov. 7 to a six-year term.

Percy told of the new higher education bill passed by Congress "which says that never again will any young person be deprived of any education because of financial need."

"We've authorized this bill and now we must get the money appropriated," he said.

He and Sen. Adlai Stevenson will be working hard to hold up the federal government's responsibility in making the act a success, he added.

"I hope we will be able to find funds for your innovative programs," Percy concluded. The SIU report, for both the Carbondale and Edwardsville campuses, was prepared for receipt by the Higher Board by James B. Holderman, IBHE executive director, and James M. Brown, chief of board staff of the SIU Board of Trustees.

It told in broad terms of SIUC's planned expansion of existing undergraduate programs in some social sciences, some departments in the School of Home Economics and other programs which address themselves to contemporary social problems.

There will be continued emphasis on these programs applicable to the problems of human physical environment."

The Vocational-Technical Institute program is to be re-named and restructured to interact more productively with other university programs and with area community college programs. A baccalaureate program in technical careers is proposed.

## 'Flash-Cat' to Play At Teen Town Dance

The YMCA Teen Town will feature "Flash-Cat" at a dance from 8 to 11 p.m. Saturday. It will be a return engagement for the group which drew a large crowd at the last dance. Because of the response, the group has decided to hold dances bi-monthly rather than on a monthly schedule.

The dance will be in the Teen Town area with admissions at \$1 for tickets bought in advance from Tri-Hi-Y girls and \$1.25 at the door.

## No Easy Words Confront GC Future Secretaries

Members of the Granite City High School Future Secretaries Association were faced with "self-conscious," "convalescence," "usable," "incandescent" and "likeliest"—among other difficult spelling words—at their monthly meeting held at the school last week.

Team No. 1 and Team No. 2 vied for top honors with members on Team No. 1 emerging victorious and earning a piece of gum as their prize. The program entitled "You're Next" was under the direction of program committee chairman, Alma Davis, who presented the words to the spellers.

Due to the illness of President Kathy Williams, the business meeting was conducted by Vice-President Karen Richardson.

Members decided to participate in the Christmas observance for patients at the Madison County Nursing Home in Edwardsville on Dec. 16 with members of the Tri-Cities Chapter, NSA. Prior to that date they will meet at the office of Larry Siderer, Siderer Supply Co., to fill Christmas stockings with candy and fruit to be distributed on the occasion.

In addition, each member will provide a handkerchief and enclose it in a Christmas card for one of the residents of the nursing home. A letter will be sent to each member with full details, and final plans will be handled by Angela Hull, civic committee chairman.

Plans for a Christmas party for interested FSA members to be held the middle of December, were discussed and details will be announced later this month.

In the absence of the chairman of the point committee, Ruth Anderson was appointed temporary chairman to receive points which will be totaled and decide the winner of the next Miss FSA Award in May.

New members who were not

at the initiation ceremony in October were presented with their FSA pins at the meeting. Any member who has missed the October and November meetings, and who does not attend the meeting on Jan. 9 will be dropped automatically from membership. The membership committee will notify those who have missed two meetings to warn them of their impending loss of membership.

NSA representatives present included Mrs. Charles Vonn, General Steel Industries; Mrs. Gail Foley, Ruston-Purina; and Mrs. Edith Headrick, Granite City Steel Co.

Refreshments will be served at all FSA meetings, with each committee being responsible for baking cookies and buying soda for a certain month. Melanie King volunteered her membership committee for the January meeting, as there is no official FSA meeting scheduled for December.

The Jan. 9 meeting will feature a speaker from Belleville Junior College who will explain the value of further training after high school graduation.

## Baton Twirlers Earn Trophies at Contests

Local baton enthusiasts have attended two baton contests, winning a total of 43 trophies including seven first places.

During the weekend, six twirlers competed at LaPorte, Ind., where Pam Love, 5, took first place in personality and Zandra Yount, 4, captured first place in special events. Others attending and winning trophies in separate divisions were Angel Sutton, Linda Schneide, Ray Alan Yount and Pam Engel.

At an earlier contest held in Harrisburg, Mo., Jackie Patuski, 15, took three first places.

## State Director Tells Group:

## Higher Education Faces Many Changes in Decade

"By the end of the 1970's we may not recognize what we now know in higher education," Dr. James Holderman executive director of the Illinois Board of Higher Education, said Monday in a speech to the Illinois College Relations Conference at Southern Illinois University at Edwardsville.

Speaking to representatives from about 25 Illinois colleges and universities, Holderman said that everyone's job will be to "turn around the less than highly popular image of higher education."

Holderman said new levels of accountability are being demanded by state legislators, students and the general public.

"We're being forced to move to specific program budgeting so everyone will know what they're getting for their money," he said. "Teaching loads of faculty members and the number of contact hours they have with students are being questioned and also must be accounted for."

Holderman said funds for higher education in Illinois and most other states will continue to be limited during the 1970s. These limits will make it imperative to set priorities, giving rise to changes in higher education never before considered.

New delivery systems such as the proposed Lincoln State University must be begun, Holderman said. Lincoln State University, a "statewide university without walls," would be aimed at persons who traditionally have not had access to higher education, including persons without adequate income, persons who must move often because of their own or their spouse's job, persons confined to hospitals or prisons, persons with inadequate secondary school preparation and others. Lincoln State could allow credit for work and life experiences, he said.

"Lifelong continuing education must become a reality," Holderman said. "Many older people want to return to school. The average age of students at the two newest state senior institutions (Sangamon State and Governors State universities) is almost 30—these aren't the typical college kids we've dealt with in the past."

Holderman said other enrollment trends are being noted that make a re-evaluation of current policies necessary. He said after many years of growth, public four-year uni-

versities in 1971 and 1972 experienced enrollment declines, and enrollment in private institutions of higher education also

declined this year. But, Holderman said, two-year community colleges have grown significantly in the past few years.

Holderman said such shifts in enrollment, combined with the increase in hiring by businesses or persons without bachelor degrees, indicate "that perhaps we've oversold the baccalaureate degree."

**Need for Planning**  
All the changes show a need for planning among public institutions and also a need for cooperative planning between public and private institutions.

"One goal of this planning must be elimination of duplication of effort," Holderman said, pointing out that a recent survey by the Board of Higher Education of 11 senior institutions in Illinois showed the schools were interested in beginning more than 800 new degree programs in the next decade.

Part of the planning effort should stress elimination of

barriers to easy transfer of credit. Praising SUE for its moves to establish cooperative programs with several Missouri universities, Holderman said state lines should not be a barrier to access of all students to higher education.

Higher education must also become more sensitive to solving social problems, Holderman said.

"I believe there's an increased public awareness for statements by universities that a problem is being studied, or if we were to speak frankly, restudied," he said. "The time has come for action, not further study."

Holderman said he hopes to continue moving toward implementation of the Board of Higher Education's Master Plan Phase III for Illinois.

"Higher education today is a 'hot' subject," he said, "and we have to work to re-achieve

## 2 New Dental Teachers Have Medicine Degrees

The Southern Illinois University School of Dental Medicine has hired two faculty members with degrees in both dentistry and medicine as part of the school's philosophy that it is essential for a dentist to be knowledgeable about "the total patient."

Dr. F. W. Y. Chue earned his D.D.S. degree in 1960 from McGill University in Quebec and his M.D. degree in 1966 from the University of Alberta. He came to SIU at Edwardsville several months ago. Dr. John Angellio earned his D.D.S. in 1957 from St. Louis University and his M.D. degree in 1970 from Duke University before joining SUE in 1971.

Dr. Chue and Dr. Angellio are co-chairmen of the department of medicine at the dental school. Dean Frank Sobkowski said students will benefit greatly from their knowledge.

"There are many instances where it's vital for a dentist to have an acquaintance with systemic disease," Sobkowski said. "For example, a dental patient with a prosthetic (artificial) heart valve could suffer great harm from certain dental work unless he's had the proper pre-medication. In the past, many dentists haven't had the training they need to know the proper pre-medication."

Dental students at SUE will have courses in oral medicine, oral diagnosis, general physical diagnosis and a general survey of medicine.

"Dental schools are doing a minimal amount of medical instruction, but they haven't included courses on physical diagnosis or an extensive general survey of medicine," Angellio said. "We believe it's important to be aware of the oral manifestations of systemic disease. We're not attempting to train physicians, but there will be times when dentists will have need of what we're hoping we can teach them."

"The students here are very mature and I'm impressed with them," said Chue. "This is something I'm looking forward to very much."

## Graham, Jenkins Cited At Westminster College

Two Granite City students were among 80 to be honored for outstanding academic achievements at the fall awards convocation of Westminster College, Fulton, Mo.

They are Kenneth L. Graham, senior, named to membership in Zeta Tau Delta honorary scholastic fraternity, and Jon L. Jenkins, a senior, named to the 1972 edition of "Who's Who Among Students in American Universities and Colleges."

"It was an exciting life but it was a busy one," Chue said. "There were days when I did oral surgery in the morning and delivered a baby in the afternoon. I was on call 24 hours a day, seven days a week, and with my wife working in my office as well as raising our daughter, we didn't have much time to ourselves."

Chue said he was always interested in earning a D.D.S. and an M.D. because dentistry and medicine complement each other so well.

He was accepted to medical school and dental school at the same time, but chose dental school first "because there were a large number of opportunities for graduated I worked as a dentist and made enough money to pay myself through medical school."

A native of Hong Kong, Chue had visited the United States frequently but had not been in America for any extended period of time before he and his family moved to Godfrey last summer. He said he "really liked" the area and is excited about teaching the 24 students in the dental school's first class.

"The students here are very mature and I'm impressed with them," said Chue. "This is something I'm looking forward to very much."

### Education Act Passed By Congress, Is Signed

The Education Amendment Act of 1972 has now been passed by Congress and signed into law. It breaks new ground in its provisions for assistance to college students, as well as to the higher education institutions which they attend.

A basic educational opportunity grant program authorized in the new law entitles a student from a below-the-poverty-line family to receive \$1,400 a year in federal assistance. Students from families above the poverty line are also entitled to receive the grants scaled according to what individual families can be expected to contribute to the cost.

Unlike most other existing student assistance programs, these new student grants are made directly to eligible students.

The basic grants program cannot be funded, however, until four previously existing student assistance programs—the supplemental education opportunity grants, college work-study grants, National Defense Student Loans and Guaranteed Student Loans—have been funded each year for specific amounts.

#### Aid to States

Also authorized is a new program of Federal aid to States on a matching basis designed to develop state scholarship programs.

Special programs for students from disadvantaged backgrounds are extended: Talent Search locates disadvantaged youths of college caliber and encourages them to enter college. Upward Bound helps them prepare for college, and Special Services for Disadvantaged Students offer tutoring and other counseling services while students are in college.

Two new provisions for financial assistance to higher education institutions have been included in the Amendment of 1972. A "cost of education" al-

lowance has been authorized based on the number of federally assisted students attending a particular college or university. Grants may be used for any purpose, including instruction. This is the first time generalized aid to higher education has been authorized by statute.

Emergency assistance to institutions in severe financial distress has also been authorized. The Senate Committee on Labor and Public Welfare received testimony that indicates hundreds of institutions of higher education are facing financial disaster. According to a report from the Association of American Colleges, the average private college or university in every region of the country is "in the red".

#### Study Financial Crises

The new law establishes a commission within the executive branch to study the financial crises facing colleges and universities, and also to recommend new forms of both student and institutional assistance.

There are new provisions regarding community colleges and occupational education programs. A Bureau of Occupational and Adult Education is established within the Office of Education to administer programs.

A new National Institute of Education, housed in the Department of Health Education and Welfare, is directed to conduct educational research activities now conducted within the Office of Education and to coordinate educational research programs throughout the federal government.

This legislation constitutes a new single law encompassing all continuing higher education financial assistance programs previously authorized under separate acts.

It remains now for Congress, which convenes Jan. 3, to provide through the appropriation process the funds for implementation of these programs.

### MHS Holds Career Day For Juniors, Seniors

Madison High School held a Career Day for juniors and seniors last week as students considered their futures in conferences with representatives of colleges, trade schools, military services and industry.

The program opened with an assembly before it was separated into four divisions for the various fields. Refreshments were served by the home economics department.

Among representatives of schools were two MHS graduates, Linda Sales, a student at St. Luke's Hospital School of a sophomore at McKendree Col-

lege. In charge of the program were faculty counselors Charles Steptoe and Dolores Folkerts. Nursing, and Harelyn Johnson.

Other establishments represented were:

Eastern Illinois University, Lewis & Clark Community College, Belleville Area College and its Data Processing Center, Illinois Technical Institute of Granite City, Southern Illinois University at Edwardsville and its nursing department, University of Illinois.

## No Tail Lights Lead To Arrest, 5 Charges

Lack of working tail lights on his auto led to the arrest of and five charges against Richard E. Grider, 38, of 2546 Circle Drive, who was stopped by police at 2:30 a.m. Tuesday at 25th Street and Washington Avenue.

The police report said open bottles of wine and whiskey were found on the floor of the auto and a pistol was found on the seat.

Grider was charged with unlawful use of a weapon, no firearms identification, illegal transportation of liquor, driving while his license was suspended and driving without rear tail lights.

He was released on recognizance bond. A preliminary hearing is to be set on the weapons charge.

## KETC's Electric Co. Accepted in Schools

Two nationwide studies of school use of "The Electric Company," telecast on KETC-TV, Channel 9, have found that the new experimental TV series designed to teach basic reading skills has met with unprecedented acceptance in classrooms around the United States.

Researchers who conducted the studies concluded that the daily half-hour series recorded "a remarkable advancement over previous trends in school innovation."

Among other things, they found that within two months of its introduction last fall the program was being viewed in 45% of the elementary schools in the U.S. with full TV capability and that toward the end of the first season 88% of the national sample of teachers reported their students had experienced an increase in reading interest as a result of viewing the series.

"If only in terms of the speed and scope of penetration of elementary schools of all kinds, The Electric Company must be considered a highly successful venture," concluded the authors of the reports, Dr. Robert E. Herrriott and Dr. Roland J. Liebert, of Florida State University.

**Usage Remarkable.**  
Dr. Sidney J. Marland Jr., U.S. commissioner of education, said the survey results "The extent to which American elementary schools put this new teaching aid to classroom use is truly one of the remarkable events in the history of instructional television."

They also highlighted the fact that many schools cannot yet take advantage of modern technological aids such as "The Electric Company" because of technical deficiencies. Nearly half of the schools in the U.S. were unable to adopt the series because they lacked TV sets, the researchers found. About 87% of all U.S. homes have TV, but only about 53% of all elementary schools had TV capability to see "The Electric Company," the researchers reported.

About two million pupils were viewing the series in school (and an estimated two million more saw it each week at home).

The survey found a warm response for the program, and that many schools could not use the series because of technical deficiencies.

The researchers concluded that "the major barriers to utilization were not willingness but access."

Some schools could not receive the program because they had no TV sets or had them in insufficient quantity or quality, they discovered.

**Schools Divided**  
"The cumulative effect of technical deficiencies is overwhelming," the report found. "An estimated 48.7% of the schools in the U.S. were unable to adopt 'The Electric Company' because of these factors. This essentially divides the nation's schools in half."

"If all schools are to have access to the growing national resources in instructional materials," said Dr. Liebert, "it seems clear that an updating of school equipment is in order."

"The Electric Company" began its second experimental season on KETC-TV, Channel 9, Oct. 23. The station airs the program during the morning Monday through Friday for the 250,000 students being served by its participating schools, those contributing \$1.25 per pupil per year in participation fees.

The station also repeats the program during the morning Monday through Friday for use in the homes of the entire 550,000 coverage area. The latter telecasts are financed through \$25 annual family membership contributions by more than 3,500 families.

## Goodpaster Cites Rising Strength Of Soviet Forces

Gen. Andrew J. Goodpaster, former Granite Cityan who is supreme commander of Allied forces in Europe, believes that the Soviet Union is developing the strongest military machine in the world while disarmament negotiations encourage wishful thinking in the West.

The general spoke of Russian military capabilities in a speech to the Heidelberg, Germany, Chapter of the Association of the U.S. Army.

"The Russians are on the move in many areas, particularly where they see or sense weakness, confusion and conflict," General Goodpaster said. "In 1972, we face on the one hand the prospect of continuing negotiations with their accompanying aura of euphoria and wishful thinking."

"And on the other hand we face growing Soviet forces—the strongest military and willing to use that power."

General Goodpaster, commander of the North Atlantic Treaty Organization's European command forces, said the West "must substitute some careful thought for the woolly-headed good feeling, the euphoria that could otherwise become the basis for action."

He said NATO must not reduce its forces unilaterally before or during prospective negotiations with the Soviet bloc.

## TRESPASS CHARGED

Larry Turner, 17, of 2128 Washington Ave., was charged with criminal trespass to property, riding a minibike on Granite City Steel Co. grounds at 19th Street and Edwardsville Road during the weekend. The complaint was signed by a plant guard.

Gershensaid some of the increased benefits just before the recent election were no more "than throwing the veterans a bone."

He said an increase in educational benefits to \$220 per month for a single veteran is not at all adequate.

Veterans' Day Question -- Vietnam  
Heroes Blamed for Unpopular War?

Vietnam-era veterans are being made scapegoats for an unpopular war, Martin Gershensaid, war correspondent and journalism professor, said Friday as part of Veterans' Day at Southern Illinois University at Edwardsville.

Gershensaid, author of the book "Destroy or Die: The True Story of My Lai" and advisor to veterans' groups at the University of Illinois, criticized federal officials for being insensitive to the needs of many of the eight million Vietnam-era veterans who have returned to civilian life.

Gershens remarks brought disagreement from another speaker, Edward Kelly, assistant director of the U.S. Veterans Administration regional office in Chicago.

About a dozen organizations involved in veterans affairs were represented during the day at SIUE as part of an attempt by the SIUE Association of College and University Veterans to induce a dialog among disparate groups, including Vietnam Veterans Against the War, the American Legion, Veterans of Foreign Wars and the Air Force Reserve Officers Training Corp.

"The Vietnam veterans are one of the most shafted groups in American history," Gershensaid.

"But since some recent protests, things have improved, with federal officials trying to make the shafting more palatable."

Gershensaid some of the increased benefits just before the recent election were no more "than throwing the veterans a bone."

He said an increase in educational benefits to \$220 per month for a single veteran is not at all adequate.

"The Veterans' Administration gives all kind of publicity to its toll-free telephone line of Chicago," Gershensaid. "A veteran can call all he wants — and maybe someday the VA

will even return those calls." Veterans returning from combat in Indochina are ignored or treated hostilely by many member of society, Gershensaid.

"They have been fed by the war in the eyes of the very people who were responsible for sending them to fight in the first place. The guilt should be borne by us, not by those who did as they were told."

Kelly said as a VA official he has a different perspective on federal treatment of the veterans than does Gershens.

"We're told our operation is impersonal," Kelly said. "Well, it's true our office is a massive paper mill, but when you're dealing with hundreds of thousands of people that's something hard to avoid. We have a new emphasis on personalizing communications."

Kelly said the VA is providing for veterans unable to find work.

He said a person calling the Chicago office on the toll-free telephones "will have their call answered 90 times out of 100 by a Vietnam veteran."

After the speeches, students and veterans' representatives had informal discussions in the Goshen Lounge of the University Center.

John S. Rendleman, SIUE president, encouraged faculty members to "extend a fit measure of understanding" to any of the approximately 2,000 veterans on campus or to others wanting to attend the program while classes were in session.

In a letter to the faculty and staff, Dr. Rendleman said Veterans' Day celebration in recent years have settled "into perfunctory parading and flag-waving."

"The present situation in this nation demands more substantial expressions of interest and concern," he said. "All of us share the

profound hope that peace may be finally consummated in Southeast Asia.

"This disastrous military adventure has already taken a terrible toll — and the focus of this agony has fallen on the men who served there and have now returned."

"A fuller understanding of the situation of the veteran in our society is sorely needed. On their own initiative, veterans here at SIUE have already done a great deal to further such understanding."

SPECIAL RECOGNITION has been given to Mr. and Mrs. James Stuart of Granite City for their help in collecting donations to purchase Christmas gifts for children at the A. L. Bowen Children's Center in Harrisburg. The Stuarts now are organizing this year's campaign to raise funds. From left at the presentation ceremony are: Dr. Richard Blanton, assistant director of the Division of Mental Retardation, Department of Mental Health; Mrs. and Mr. Stuart; and Dr. Albert J. Shafter, superintendent of the center.

## Drive to Buy Toys for Children At Bowen Center Planned Here

Plans are being completed here for the annual drive to raise funds to purchase toys for children at the A. L. Bowen Children's Center in Harrisburg. The 24-bed facility assists mentally retarded and emotionally disturbed children.

Mr. and Mrs. James Stuart, 3001 E. 23rd St., who were honored by the state Department of Mental Health for their fundraising work last year, again are planning a "bucket brigade" at the gates of Granite City Steel Co. to collect donations from employees. The effort is planned for Nov. 20.

The Stuarts use the money to purchase special gifts from a list of suggested items prepared by the school. Granite City Steel employees have been the major source for funds in the past.

This year, the Stuarts hope to be able to increase the number of toys Granite City purchases by asking for donations from the public.

They say persons wishing to make donations may mail them to the Stuart home.

The Stuarts were presented a special certificate at the children's center by Dr. Richard Blanton, assistant director of the Division of Mental Retardation, Illinois Department of Mental Health, and by Dr. Albert J. Shafter, superintendent of the center.

Shafter said that Granite City residents last year donated funds which purchased hundreds of toys and gifts. "Their generosity has not been forgotten," he commented.

## Seek Persons Who May Qualify for Benefits

Many people may be losing money William Phalen, district manager of the East St. Louis district Social Security office, said today. For this reason, the Social Security Administration is giving special emphasis to locating persons who might qualify for disability payments.

Benefits because of disability can be paid in three different situations: 1) To disabled workers under age 65 and certain members of their families; 2) To those disabled before the age of 22 who continue to be disabled; (these payments can be made only if the person's parent becomes entitled to benefits or is deceased); 3) To disabled widows and dependent widows who are age 50 or older.

Phalen said this disability protection is especially important for young families. The risk of disability is always present since anyone could have the misfortune of becoming the victim of a serious illness or accident. And when disability strikes the breadwinner, it could mean disaster to the family's financial security.

Phalen expressed concern that a large number of persons could be entitled to disability benefits under these provisions but have never applied. He encouraged all those who believe they might qualify to contact the Social Security Office to discuss their situation. The phone number is 274-2200, or applicants may visit the office in person at 680 Missouri Ave., East St. Louis.
